

ANNUAL REPORT 2020

CHAIRMAN AND CHIEF EXECUTIVE'S ANNUAL LETTER

2020 was a year of change and uncertainty the likes of which we have never seen. The year was marked by wildfires, murder hornets, the death of multiple cultural figures ranging from Boseman to Ginsburg, significant political unrest, and a wave of peaceful demonstrations to end racial injustice. Add a worldwide COVID-19 pandemic – the rise in infections and death; the disruptions and dislocations to lives and business; the emergence of vaccines from cutting-edge science – and 2020 saw more than its fair share of significant historical events.

It is notable that as an industry, we didn't get swept up by the sea of change. We did not stop. The Wisconsin biohealth industry stepped up to the challenge of the COVID-19 pandemic and demonstrated strength, ingenuity, and compassion in ways that helped their employees and the state, and saved lives worldwide. Members put competition aside in the name of cooperation and collaboration for the greater good, and the Wisconsin biohealth industry has flourished.

We want to take a moment to thank our member companies for continuing to push forward to help maintain the health and safety of us all. THANK YOU!

As the Wisconsin biohealth industry's collective voice, BioForward continued to focus on member-centric efforts designed to develop an identity for the Wisconsin biohealth industry to compete on the global stage and open the door for more significant investment activity as well as talent acquisition and retention. In tandem, we challenged ourselves to unite our industry despite the world quarantining and Zoom fatigue.

Going into our 34th year of operation, we reaffirm our mission to work together to grow Wisconsin biohealth companies and unite the industry to develop integrated health solutions that define the future of healthcare. BioForward's growth allows us to reinvest in our members through quality programming, making connections, expanding initiatives, and vital donations to Wisconsin STEM programming. We have renewed energy to position the industry for growth and promote the industry and region as we further define our role in helping the Wisconsin biohealth industry build a brighter future.

Renewed and United,

MISSION

Grow Wisconsin biohealth companies and unite the industry to develop integrated health solutions that define the future of healthcare.

BioForward Wisconsin is the collective voice of Wisconsin's robust and comprehensive biohealth cluster, which represents more than 220 member organizations across an integrated network of health solution leaders, including research institutions, biotech and biopharma, digital health and medical device and diagnostics. It is an action-oriented association that focuses on initiatives to strengthen the state's talent pipeline; collaborations to develop supply chain partnerships; educational and networking events to enhance professional development; and legislative advocacy to highlight the economic and social impact of the biohealth industry on the state, nation, and world.

ABOUT BIOFORWARD WISCONSIN'S ECONOMIC IMPACT

BioForward was proud to share the results of this year's "Wisconsin Biohealth: Industry Landscape and Economic Impact Report" which highlighted the statewide biohealth industry as a leading economic growth and innovation driver for Wisconsin.

According to the report, prepared by TEconomy Partners, LLC, Wisconsin's biohealth industry is outperforming most major state industries in terms of job growth and wages. Among the highlights within the third-party report are:

ECONOMIC IMPACT

- Total state economic impact contribution by the biohealth industry is \$28.8 billion in direct, indirect, and induced sources
- \$1 billion in state and local taxes

WAGES

- The high-quality jobs generated across the biohealth industry pay more than \$87,000 on average (79% above the overall industry average in Wisconsin)

JOBS

- Wisconsin's biohealth research organizations, manufacturers, digital health, and distribution companies directly employ more than 46,000 individuals
- Have seen 8% job growth since 2015, outpacing the state's overall job growth of 3%
- This employment supports more than 72,000 additional jobs, leading to the full biohealth job impact reaching nearly 119,000 jobs throughout the state of Wisconsin

FUNDING

- Wisconsin-based institutions and organizations received almost \$500 million in National Institutes of Health funding in 2019 (an increase of 22% since 2015)
- Venture capital and angel investments in Wisconsin's biohealth industries totaled \$517 million during the 2015-19 period
- Wisconsin biohealth companies received a combined 131 Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) awards totaling \$71 million between 2015-2019

"More than just mere numbers in a report, this insight highlights the state's vibrant and dynamic biohealth industry as a crucial impact to Wisconsin's economic growth," said BioForward Wisconsin CEO Lisa Johnson. "The billions in economic impact for our state combined with the thousands of high-paying jobs play a significant role in our state's economy. As importantly, individuals and organizations in this industry are essential to the treatment of, and solution to, the COVID-19 pandemic."

AREAS OF FOCUS

POSITIONING THE INDUSTRY FOR GROWTH

NETWORKING & CONNECTIONS

BioForward members increasingly value assistance with networking and making connections between businesses. A significant way that BioForward fills this need is through events that promote the WI biohealth industry, provide education, increase engagement, and provide an opportunity for networking, community, and inspiration.

2020 ANNUAL MEMBER MEETING

BioForward's Annual Member Meeting had to pivot this year due to the pandemic and become a virtual event. To provide value to the members and support the industry, BioForward made the event free

and presented a panel about growing the industry and an educational panel about developing a COVID-19 vaccine.

2020 WISCONSIN BIOHEALTH SUMMIT

In a continued effort to strengthen and protect the biohealth industry during the pandemic, BioForward shifted the Summit

to a virtual event and expanded dates and times to fit into the frantic schedules of members who were vital to diagnosing, treating, and preventing the coronavirus. Comedy improv troupe, Second City (who brought an element of fun), supplemented programming about Wisconsin's Response to COVID-19, Diversity & Inclusion, and Exploring New Landscapes in Biohealth. BioForward was honored to present Dr. Michael Osterholm for his expertise on infectious disease, and Ms. Darcy Luoma from Darcy Luoma Coaching for tips on how to face adversity.

2020 YEAR-END CELEBRATION

With a surprisingly successful 2020 behind us, BioForward took some time to celebrate and network with our members at our third annual Year-End Celebration event. Over 100 members joined us to celebrate stories of donation and volunteering within our community, participate in some self-care with Kristin Johnson Bott from Mindful Wellness, and receive special holiday gifts from BioForward.

BIOHEALTH AWARDS

BioForward is proud to recognize scientific and business leadership and innovation that has helped Wisconsin become a top leader in integrated health solutions.

UNITED AGAINST COVID-19 EVENT SERIES

Dedicated to educating people from a wide-range of life (biohealth community, entrepreneurs, government officials, media, and more) about how the WI biohealth industry stepped up to the challenge of COVID-19, to share resources and knowledge between companies, and promote solutions to end the pandemic.

Large Companies Unite to Provide Insight to Small Companies: A Best Practices Virtual Panel (Eurofins, Illumina, Exact Sciences, Promega, Gilson, Covance by Labcorp, Catalent) - March 24, 2020

Virtual Town Hall with Senator Baldwin - June 17, 2020

Wisconsin Biohealth Industry's Response to the COVID-19 Pandemic (Aldevron, Catalent, ENDECE, Exact Sciences, Genturi, Gilson, Medical College of Wisconsin, Nexus Pharmaceuticals, Promega, Versiti) - January 14, 2021

COVID-19: The Vaccine is Here- Now What? (BIO) - January 26, 2021

Ending the Pandemic: The Importance of Genomic Surveillance in Identifying Variants (Illumina) - March 10, 2021

SELECT SAVINGS

BioForward's purchasing consortium translates into significant cost savings for member companies. The combined purchasing power helps the industry and members operate with cost-efficiency allowing them to run effectively.

BY MEMBER COMPANIES

EDUCATION, WELLNESS & COMMUNITY

BioForward is proud to collaborate with our education systems to offer training and development of member company talent. We also actively work with the following organizations to foster STEM & wellness education and community activities.

STEM EDUCATION

HEALTH/WELLNESS

OVERALL COMMUNITY

SPONSORED

We also acknowledge that there is a wealth of STEM programs in Wisconsin that do fantastic work to use education to create awareness, excitement, and opportunities for youth that will someday contribute to the pool of talent for our members. BioForward made \$28k in donations and sponsorships to support STEM Programming as well as community health programs to eliminate barriers to those in need.

COLLABORATIONS

BioForward collaborates with organizations that offer comprehensive support of innovation and workforce development to translate discoveries into commercial products and groundbreaking therapies. These organizations include:

Forward BIOLABS serves as an essential partner with its fully equipped, maintained, and supported shared life science lab, which lowers the barrier for the launch and success of innovative startup companies, while increasing their capital efficiency. To learn more about the labs and how to support them, visit forwardbiolabs.org.

15 STARTUP MEMBER COMPANIES

7 GRADUATED STARTUP COMPANIES

Forward BIO Institute is a part of UW-Madison and serves as a public enterprise that catalyzes innovation and biomanufacturing research, entrepreneurship, and workforce development, and acts as a catapult pushing disruptive technologies into the private sector. To learn more and join the consortium, visit forwardbio.wisc.edu.

ADVOCACY

WISCONSIN'S INDEPENDENT VOICE-ADVOCATING TO STRENGTHEN WISCONSIN'S BIOHEALTH INDUSTRY

"BioForward's mission is a leading force in our advocacy efforts. As an organization, we believe that improving and saving lives IS NOT a partisan issue. We work within the whole political spectrum to serve our companies and advocate for the best outcomes for patients. We champion those parties and policies that support patients and the medical technologies that save lives."

– Lisa Johnson

PUBLIC POLICY PLAYS A CRITICAL ROLE IN BIOHEALTH INDUSTRY SUCCESS

BioForward works actively to:

- Shape state and federal policy through education and engaging with policy makers
- Collaborate with legislators, industry, and research institutions on critical biohealth issues and initiatives
- Monitor and inform members of legislation that will impact our industry
- Educate members on how they can be engaged in public policy
- Provide essential data to decision-makers on the economic benefit of Wisconsin's biohealth industry

TIMELINE OF KEY BIOFORWARD ACTIVITIES RELATING TO COVID-19 RESPONSE AND SUPPORT ADVOCACY

2020

- EARLY 2020** ▪ In January, the biohealth industry was already leading the way on COVID-19 solutions, and by February, some vaccines and therapeutics were ready for early-stage trials
- MARCH 17, 2020** ▪ BioForward launches the Member Coronavirus Resource Guide webpage to provide resources, information, and extend help as needed
- MARCH 18, 2020** ▪ BioForward pivots to Biohealth United Newsletter to provide resources, information, and extend help as needed
- MID-MARCH, 2020** ▪ BioForward requested that Wisconsin biohealth companies be designated as essential workers to continue working under any forthcoming shelter-in-place order
- MARCH 24, 2020** ▪ Large Companies Unite to Provide Insight to Small Companies: A Best Practices Event
- MARCH 25, 2020** ▪ Wisconsin's "Safer-at-Home" order was released noting that biohealth, biotechnology, pharma, med device, healthcare IT, and related supply chain were exempt from Safe at Home orders as essential businesses
- MAY 21, 2020** ▪ COVID-19 Vaccine Panel as part of BioForward Annual Member Meeting
- JUNE-DECEMBER, 2020** ▪ Monthly meetings to select legislators educating them on biohealth industry and vaccination facts
- JUNE 17, 2020** ▪ Virtual Town Hall with Senator Baldwin
- SUMMER & FALL, 2020** ▪ BioForward, Pfizer, and Flugen, hosted meeting with state legislators to provide background, education, and updates about COVID-19 vaccines
- SEPTEMBER 23, 2020** ▪ BioForward commits first day of WI Biohealth Summit to COVID-19 response including a keynote by Dr. Osterholm
- SEPTEMBER & OCTOBER 2020** ▪ BioForward, UW Health, Wisconsin Children's Hospital, Marshfield Children's Hospital, WI Chapter of American Academy of Pediatrics, and the Wisconsin Hospital Association, sent written vaccine educational communications to every legislative office in anticipation of vaccine distribution and access discussions
- DECEMBER 8, 2020** ▪ BioForward proactively requested eligibility for Phase 1b vaccinations for companies
- DECEMBER 10, 2020** ▪ BioForward starts marketing COVID-19 facts website to provide factual information to public and members

2021

- JANUARY 14, 2021** ▪ BioForward sent a comment letter to SDMAC recommending biohealth members are essential and should be Phase 1b vaccination
- JANUARY 14, 2021** ▪ Wisconsin Biohealth Industry's Response to the COVID-19 Pandemic Event
- JANUARY 26, 2021** ▪ COVID-19: The Vaccine is Here- Now What? Event
- JANUARY 27, 2021** ▪ BioForward reached out to members to advise them in getting vaccines for employees based on recommendations on critical healthcare supply chain-non-frontline healthcare workers
- MARCH 10, 2021** ▪ Ending the Pandemic: The Importance of Genomic Surveillance in Identifying Variants Event

MEMBER ACHIEVEMENTS - COVID-19

The Wisconsin biohealth industry stepped up to the challenge of the COVID-19 pandemic and demonstrated strength, ingenuity, and compassion in ways that helped their employees and the state, and saved lives worldwide. We thank you, member companies, for pushing forward to help maintain the health and safety of us all!
